

WHAT'S DELTA V FOUNDATION?

Delta V is a student-led community initiative for the students, by the students.

We believe students understand students best — we know what inspires, what's missing, and how to make learning exciting.

OUR MISSION

Delta V is for any student who wants to learn and grow — from big cities, small towns, or anywhere in between.

We aim to support kids who have dreams but need a little push. Curious minds are welcome here.
